

We express our deepest gratitude for the honor you give us each and every time you choose NBK's products.

At this time, we thank you for using our Couplicon ® Selection Navigator.

Here we will explain the way the Couplicon ® Selection Navigator' is used, as well provide other useful information.

When you use the Couplicon ® Selection Navigator please give the following a read through.

---

---

### Couplicon ® Selection Navigator

---

---

The Couplicon ® Selection Navigator selects the most suitable coupling (Couplicon) together with the applicable actuator and motor.

#### ■ Operating conditions

Internet Explorer® 6.0 or later, installed on Microsoft Windows ®

\*Internet Explorer ®, as well as Windows ® are registered trademarks of Microsoft Corporation.

#### ■ Usage

Select the respective item number · manufacturer or motor and item no. · applicable actuator manufacturer, and push the search button. After that, please operate following the screen prompts.

#### ■ Concerning selection results

Couplicon ® Selection Navigator makes a selection so that the motor's instantaneous maximum torque does not exceed the rated torque of the Couplicon ®.

It does not take into consideration the application of a reduction device. In the case in which a reduction device is used, please direct you inquiry to our contact center.

※ The Couplicon® is not a product of the motor maker or actuator manufacturer. Even if damage occurs from the application of the Couplicon®, the motor maker or actuator manufacturer are not responsible, and furthermore there is no kind of warranty. Please make note of this acknowledgment.

■Disclaimer facts

We pay scrupulous attention to the posted content in the Couplicon® Selection Navigator, however, we cannot guarantee it's usefulness, certainty, or accuracy. Also, please acknowledge that we are not responsible in any way for incidents that relate to or include: an error of posted content, damages resulting from using a selection that does not have the latest up-to-date information, profit or loss, etc.

With your selection results, please refer to the catalog of the motor or actuator; our customers require various products so please make sure that this product meets your needs. Please perform a trial run of the product under actual application.

\* Couplicon® is a registered trademark of this company;.
