SPE-C(INCH) Plastic Screws - Hex Socket Head Cap Screws - Inch Thread - PEEK

Heat-resistance Chemical-proof

Material/Finish

Main

•
SPE-C(INCH)
PEEK / Light Brown

Heat Resistance Temperature*1 260°C *1: This is the value for the resin material. The operating temperature of the product changes with performance

conditions such as tightening torque.

A Precautions for Use

Because a cumulative pitch difference is created when PEEK screws are manufactured, use these screws with nuts. If a nut is not used, use a 20 mm (approx. 0.79") or less fit with female thread.

• Inch screw type.

ROHS

- PEEK is a thermoplastic super engineering plastic superior in physical and chemical properties.
- Excellent chemical resistance. It remains almost unaffected by chemicals other than concentrated sulfuric acid, concentrated nitric acid, and concentrated hydrofluoric acid.
- With excellent heat resistance and water resistance, it retains strength at high temperatures.
- It features outstanding resistance to wear, shock, and fatigue.
- It also has high flame retardance which clears the UL 94 V-0 standard.
- Plastic screw properties and precautions for use
